

axicon

THE BARCODE EXPERTS

Company overview

Summary

- Established in 1978 as a provider of high-quality barcode images for the printing industry.
- Axicon specialises in producing barcode images, barcode labels, as well as a range of barcode verification equipment.
- We develop, manufacture and maintain our range of barcode verifiers - for both linear and 2D barcodes - at the company headquarters, north of Oxford.
- We also provide a range of services to support our clients, including training, consultancy, and barcode verification.

Axicon and quality

- We are an ISO 9001:2008 certified company, and were the first company to become an Accredited Solution Provider for GS1 UK.
- All of our barcode labels are verified to exceed the quality requirements of the GS1 General Specifications.
- All of our barcode verifiers are compliant with ISO/IEC 15426-1 and 15426-2 (the international standards for linear and two-dimensional barcode verifiers).
- We are also fully compliant with European legislation concerning the use of hazardous substances, CE marking, and packaging waste directives.

Axicon and standards

- Axicon contributes to the maintenance and development of guidelines and international standards for identification and barcodes.
- Staff are involved with technical committees at GS1 UK, BSI, GS1 France and GS1 Global Office.
- GS1 UK's 'Barcoding - getting it right', GS1 France's 'Printed QR Codes for Smartphones' guidelines and the GS1 General Specifications are three of the best known documents where Axicon is particularly involved.

Axicon products

- Linear barcode verifiers that enable users to check barcode quality throughout the supply chain.
- Two-dimensional barcode verifiers used especially by the health sector to check barcodes on pharmaceutical products and re-usable surgical instruments.
- High-quality digital barcode images for the printing and publishing industries.
- Barcode and other labels, in black and white or full colour.
- Barcode label printing equipment and all consumables.

Our barcode verification range

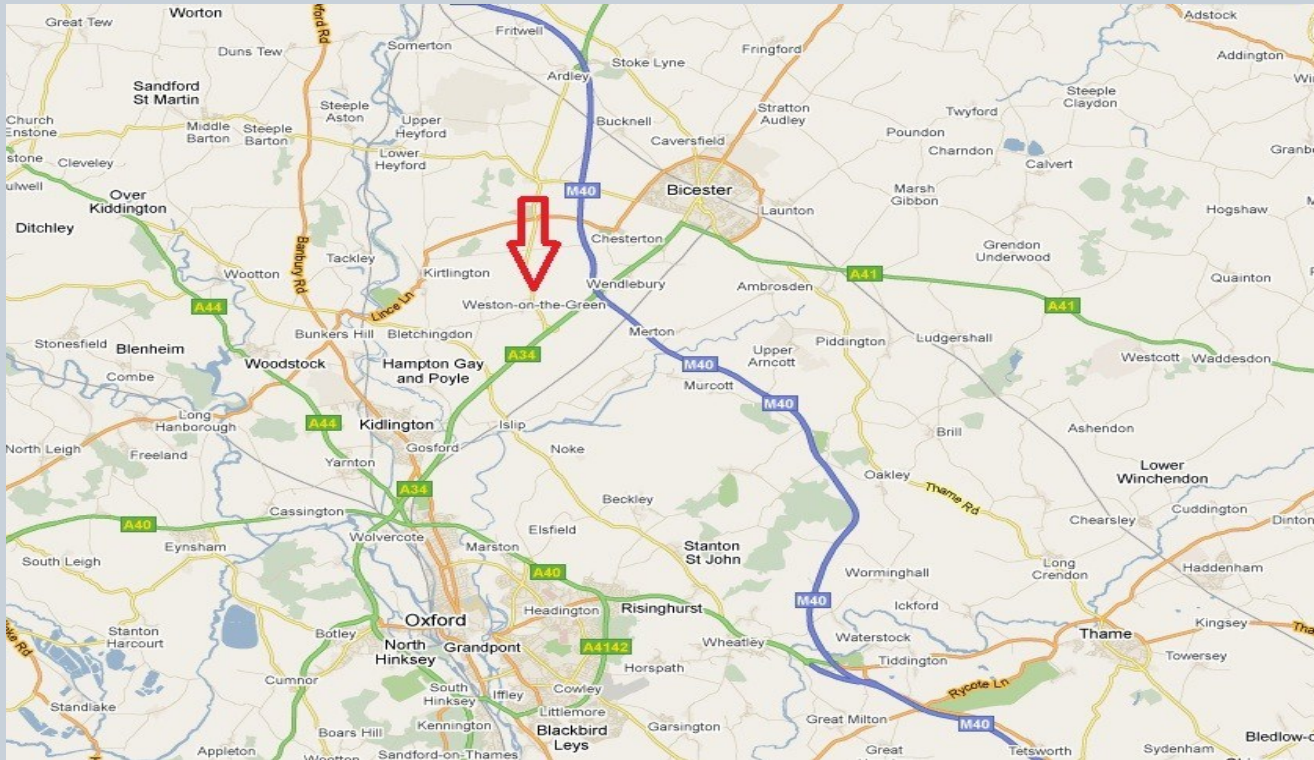

Axicon services

- Consultancy and training on all aspects of barcoding and printing processes.
- Policy and procedure writing.
- Barcode quality audits carried out on-site.
- Verification of barcodes to ISO/IEC standards.
- Annual servicing and factory calibration of all verifiers.
